Office Memorandum

TO :Paul G. Velz
Road Design Engineer

DATE: April 2, 1973

FROM :Morris Gildemeister, Chief
Statewide Planning Section

SUBJECT: T.H. 35, At Jct. C.S.A.H. 3
N. of Faribault
S.P. 6680
System Planning and Analysis Report S-132

The Statewide Planning Section transmits this report in response to R. P. Klobuchar's March 2, 1973 request for 1998 ADT and DHV. The project location is shown on the map on Page 2, while the ADT and DHV is on Page 3.

The volumes in this report were based on the formula supplied by the Federal Highway Administration. This was modified to fit the existing situation. The latest available traffic counts on roads in the area were studied. The populations of the townships affected were also reviewed and projected up to the design year. A check was made of the triptable used to assign traffic to System 10 which is the Backbone System. When these volumes were adjusted and analyzed, they are somewhat short of the enclosed volumes.

The DHV was obtained from ATR stations located on T.H. 35.
